

Charitable *Gift* Annuities

Your donation can provide you an annual income.

You can be generous without straining your finances. A Charitable Gift Annuity is the donation that provides you income for life. If you possess a house or another appreciated asset that you are reluctant to sell because of the capital gains tax, let it generate an annual stipend as a Charitable Gift Annuity.

A Charitable Gift Annuity provides immediate or deferred income for the life of one or two individuals, and a portion of the income may be tax-free. A Charitable Gift Annuity also creates an immediate charitable deduction for you and permits the remaining assets to be designated to your favorite charities or causes. Best of all, a Charitable Gift Annuity with the Batiquitos Lagoon Foundation (BLF) is backed by the full faith and credit of our partner, The San Diego Foundation.
